

CMA will bring a 57-inch haulage tire to MINExpo

Double Coin Holdings Ltd. and the China Manufacturers Alliance LLC (CMA) will be participating in next month's MINExpo International show in Las Vegas, Nev. "We are showcasing Double Coin's OTR tires, including our latest 40.00R57 E4 Double Coin haulage tire," says Aaron Murphy, vice president of CMA. Customers and end users also will be able to examine other products, and meet Double Coin engineers.

"Double Coin's presence at MINExpo shows the industry our ongoing commitment to the global mining community," says Murphy. "We invite current and prospective customers to visit us at Booth No. 133220 to review our progress." MINExpo will take place from Sept. 24-26 at the Las Vegas Convention Center. Visit www.minexpo.com for more information about the show. Double Coin and CMA have doubled their North American field sales staff and technical support this year compared to last year "to better serve the mining industry." New product developments such as a scraper tire and a 45-inch loader tire also are in the works.
