

Jiangsu the first imports of tire retreading companies accreditation

Recently, Jiangsu Inspection and Quarantine Bureau in accordance with the “Jiangsu imports remanufacturing use old machinery and electronic products inspection and supervision of the implementation details” provisions of the Jiang Su Yisheng Investment Group Co., Ltd. to apply for import of tire retreading remanufacturing register on-site audit. According to Jiangsu remanufacturing enterprise quality assurance ability assessment rules, requirements, laws, regulations, and then create the places and the scale of production, quality management, technology management, process control and other aspects of the review. Through on-site assessment, the assessment team that the enterprise’s quality assurance ability to comply with the requirements of assessment rules, through on-site audit, bringing the company to become the first in Jiangsu Province approved imports of used tires renovation of the re-manufacturing enterprises.

Renovation of the particularity of the re-manufacturing business in the environmental and safety aspects of imported products, Jiangsu Inspection and Quarantine Bureau issued a special Jiangsu imports remanufacturing use old machinery and electronic products inspection and supervision of the implementation details “and other normative documents, would provide for the registration of imports re-manufacturing enterprises may apply for import manufacturing purposes the old mechanical and electrical products for the record. To help businesses in the true realization of the recycling economy while ensuring that re-manufactured products quality and safety and environmental requirements, Wujin in Changzhou Inspection and Quarantine offices prior to the audit specialized organization of technical experts rushed to the factory to help businesses carry out self-examination and discovery does not meet the comprehensive reform, to ensure a smooth on-site assessment.
