

India Sets Chinese, Thai Bias Tires Tariff

India's Ministry of Finance has implemented anti-dumping duties on bias-ply tires imported from China and Thailand.

The duty will be in place for five years; tires imported from Thailand will attract duties of \$0.86/kg, while most bias-ply tires from China will be liable to duties of \$1.31/kg. Tires produced in China by Hangzhou Zhongce Rubber Co. will have a lower \$1.12/kg duty.

The anti-dumping duty also will be applicable on certain tubes and flaps.
